FOR CENTER OWNERS

REFERRAL LEAKS

The blind spot in radiology growth: referral leaks.

FOR CENTER OWNERS

THE PROBLEM

You spend on marketing, but orders still get lost or go elsewhere.

Follow-up with referring offices is manual, so you find out late.

FOR CENTER OWNERS

THE SOLUTION

Know who refers, who stopped, and win them back.

Gravity Grow keeps a record of every referring physician, flags volume that is falling, and runs outreach automatically. Your team builds the relationships.

FOR CENTER OWNERS

Stop losing volume.
