

IMAGING OPERATIONS

**Every order can be
lost **three times.****

Swipe to see where.

Swipe →

How many referrals went to another center last month?

Most imaging centers can't say.

LEAK 1 OF 3 · BEFORE IT ARRIVES

**The referrer sends it
somewhere else.**

Or the fax is never worked.

LEAK 2 OF 3 · BEFORE IT'S SCANNED

It sits **unscheduled.**

The patient never books. The slot goes empty.

LEAK 3 OF 3 · BEFORE IT'S PAID

A missing **authorization.**

Found weeks later, as a denial.

**Each leak lives in a
different system.
Nobody sees the
whole order.**

Get the order. Complete the exam. Get paid.

One system, from the referral to the payment.
